

Maciej Kwarcianny

Senior Business Analyst/ Web Traffic SME

Business-savvy, data-driven analyst with 6+ years of experience, Combining strategic thinking with strong technical expertise, with a proven track record of translating complex data and system behavior into measurable revenue growth. Transitioning from traditional data analysis to building production-grade solutions.

Personal Summary

Data-driven business professional, blend of strategic thinker and technical expert. Skilled at bridging the gap between business strategy and technical execution in data-driven environments. Fluent in SQL and data analytics yet comfortable with leading high-impact discussions with senior stakeholders and enterprise-scale clients.

Bringing a holistic approach to problem solving. Acting as a trusted technical advisor, especially in high-stakes, compliance-sensitive environments where I prototype solutions, not just specify them

\$ Business Expertise

Understanding of market dynamics, financial models, and corporate strategy. Ability to negotiate and close high-impact contracts, ensuring agreements are profitable and aligned with long-term company objectives.

<> Technical Expertise

Hands-on experience with systems architecture and data flows enables me to discuss the feasibility of solution options, troubleshoot bottlenecks, and ensure technical builds align with company vision.

Professional Experience

Commerce Media Tech (Zeropark)

Senior Business Analyst

12.2025 - Present

- Architected a production-grade AI Reporting Bot on AWS serverless (Lambda, SAM, DynamoDB) integrated with Anthropic LLM API — enabling non-technical stakeholders to run complex SQL analysis via Slack, cutting reporting latency from hours to minutes and saving ~12h/week at ~\$4/month cloud cost.
- Spearheaded a critical infrastructure changes for Key client (40% company revenue) resulting in a sustainable 85% YoY revenue increase.
- Technical Lead of Asana, Jira, Slack and Microsoft ecosystems migration. Migration ran fully in-house provided \$25k+ operational savings.
- Developed number of MVP solutions and automations, now integrated into the core product infrastructure, improving scalability and reducing workload.

Commerce Media Tech (Zeropark)

05.2025 - 11.2025

Business Analyst/ Key Account Manager

- Diagnosed and corrected misconfigured client integration, reducing data discrepancy by 20pp subsequently driving a 25% revenue uplift over next quarters
- Engineered data-driven margin optimization that boosted profitability by 12% while maintaining competitive pricing.
- Architected custom real-time KPI dashboards using SQL and Python to simplify decision-making.

Commerce Media Tech (Zeropark)

06.2023 - 04.2025

Technical Key Account Manager

- Architected a proprietary Python matching engine to detect brand-related domain typos increasing inventory monetization by 20%
- Acted as the primary technical liaison between C-suite stakeholders and engineering teams to roadmap high-priority product features.
- Managed enterprise-level client relationships, driving revenue growth for high-value accounts
- Negotiated contracts and collaborated with C-level stakeholders to align technical solutions with business goals
- Built custom analytics dashboards to track KPIs, enabling clients to scale budgets with real-time decision-making insights

Codewise Sp. z o.o.

06.2020 - 05.2023

Account Manager / Senior Account Manager

- Acted as a bridge between clients and engineering teams, translating business needs into tech requirements
- Collaborated with Product teams to roadmap client-requested features

Codewise Sp. z o.o.

05.2019 - 04.2020

Content Quality Specialist

- Conducted in-depth audits of ad traffic quality across publisher networks, implementing fraud detection measures
- Developed internal guidelines for traffic filtering and content approval later adopted as a company-wide standard

Key Achievements

Revenue Growth via Data Integrity

Identified and analyzed inconsistencies in web traffic routing from key customer. Rebuilt data flow and tracking logic, resulting in 85% increase in client revenue.

Linguistic Analysis Tool

Built validation system to cross-reference millions of domain against brand keywords, accounting for human typing behavior (e.g., keyboard proximity errors) to identify undervalued domains. This automated solution reduced analysis time from days to hours and directly drove a inventory monetization increase by ~20%.

Revenue Optimization

Diagnosed and corrected misconfigured client integration using third-party server verification, cutting reported discrepancies by 40pp driving a 25% revenue uplift over subsequent quarters.

Scaling up via Process Innovation

Built a brand intelligence pipeline 3-step web crawler (Playwright + AWS Athena/Common Crawl + Wayback Machine) with LLM based keyword enrichment, that generates brand-related keywords at scale — expanding advertiser bidding inventory and replacing manual research that previously capped throughput at ~10 brands. Now runs across thousands.

Volunteer Leadership

Head Event Coordinator for "Kraków Mountain Festival", managing event operations, volunteer workflow, and equipment delivery coordination.

Skills

Data Stack

AWS Serverless (AWS Lambda, API Gateway)

Event-driven architecture (EventBridge)

Infrastructure as Code (AWS SAM, CloudFormation)

API Integrations (REST APIs & Webhooks)

Web Scraping (Playwright, BeautifulSoup, Common Crawl)

AI-augmented analytics & LLM-powered enrichment pipelines

LLM agent design(Anthropic Claude SDK)

Prompt Engineering

Analytics

BI & dashboards (Power BI, Google Analytics)

SQL (PostgreSQL, AWS Athena, DuckDB)

Python (Pandas, NumPy)

Data storage & processing (S3, Athena)

Advanced Excel (Power Query, pivot tables, nested formulas)

Web Traffic Analysis (source validation, fraud detection)

Ad-tech domain expertise (RTB, attribution, traffic quality)

Business

MVP development & rapid prototyping

Technical ↔ Business Translation

Revenue optimization & data-driven decision making

Enterprise account ownership

Cross-functional tooling (Jira, Asana, Confluence, Slack)

Workflow & Process Automation

Cohort & retention analytics (churn modeling)

Education

MA, Marketing and Market Communication; Product Management

Cracow University of Economics

2014 - 2016

BA, English Philology; English in Business Administration

Andrzej Frycz Modrzewski Krakow University

2011 - 2014

Certificates

Python for Data Science, AI & Development · IBM | OCT 2025

Data Analysis with Python · IBM | SEP 2025

Databases and SQL for Data Science · IBM | AUG 2025

Generative AI Agents with Vertex AI · GOOGLE CLOUD | FEB 2025

ChatGPT & Zapier: Agentic AI · VANDERBILT UNIVERSITY | FEB 2025

Open Source Intelligence (OSINT) · NIEBEZPIECZNIK.PL | JUN 2021
